

## 使用 MFA 方式登录 VMware

需要使用 VMware 服务的所有同事都需要通过绑定二维码来升级安全等级

- 手机通过软件商店下载谷歌身份验证器（Google Authenticator），安卓和 IOS 都可安装。

### 步骤一

通过 google 身份验证器扫描二维码后，生成名为 “remoteconnection

”的 6 位数通行码；

- 二维码只用扫一次，目的就是绑定通行码。
- 以后每次登录都需要使用 google 通行码

<https://remote1.88tech.net/>

<https://remote.88tech.net/>

<https://remote2.88tech.net/>

The image shows the VMware Horizon login page. At the top, there is a green icon of a monitor with a grid of dots, and the text "VMware Horizon®". To the right of the icon is a gear icon. Below the icon, the text "Enter your MFA01 user name and passcode." is displayed. There are two input fields: the first one contains "caspsd@88tech.net" and is highlighted with a red box, with a red arrow pointing to it from the label "用户名+@88tech.net"; the second one contains a series of dots and is also highlighted with a red box, with a red arrow pointing to it from the label "旧密码+google验证码". Below the input fields is a green "Login" button and a blue "Cancel" button.

账号格式更新为 用户名+@88tech.net

密码为 旧密码加上 google 身份验证器上显示的 6 位数通行码 (6 位数会不断更新)

## 步骤二

登录成功后还有一次密码输入，注意这里的密码只需要输入旧密码，不需要加 google 身份验证器上的 6 个数字

The image shows the VMware Horizon login interface. At the top, there is a green icon of a monitor with a grid of dots, and the text "VMware Horizon®" below it. In the top right corner, there is a gear icon for settings. Below the logo, there is a text input field containing the email address "caspar@88tech.net". Underneath the email field, there is a password input field represented by a series of dots. A red rectangular box highlights this password field, and a red arrow points to it from the right with the text "再次输入旧密码" (Re-enter old password). Below the password field, there is a dropdown menu showing "88TECH" with a downward arrow. At the bottom, there is a large green button labeled "Login" and a blue link labeled "Cancel".

接下来就能正常使用了
